### **DETAILED ACTION**

In the Amendment dated July 28, 2005, the specification is amended, Fig. 6 is enclosed, Claims 33-35 are canceled, and new Claims 36-56 are added. Accordingly, Claims 1-32 and 36-56 are currently pending in the application.

However, Claims 1-32 and 36-56 are subjected to restriction requirement.

### **Election/Restrictions**

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-32 and 36-52, drawn to a method, classified in class 438, subclass 142.
- II. Claims 53-56, drawn to a device, classified in class 257, subclass 510.

The inventions are distinct, each from the other because of the following reasons:

Inventions of II and I are related as product made and process of making. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case unpatentability of the group II invention would not necessarily imply unpatentability of the group I invention, since the device of the group II invention could be made by the processes materially different from those of the group I invention.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, the fields of search are not co-

extensive and separate examination would be required, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
